## SEEDS THAT GROW

FOR 1902

Wholesale  
Catalogue for  
Seedsmen and  
Dealers only  
who buy  
to sell again

**W. ATLEE BURPEE & Co.**

Offices and { Nos. 475 and 477 N. Fifth Street  
City Warehouse | Nos. 476 and 478 York Avenue

**PHILADELPHIA**

Seed Gardens at **FORDHOOK FARMS**, Doylestown, Pa.

## TERMS OF SALE.

PHILADELPHIA, January 16, 1902.

All bills purchased after this date will be charged at the prices quoted herein,—unless special offers are made by letter or telegram and referred to in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

**SEALED PACKAGES.**—We make no charge for sealing pounds, pecks, or bushels, but, at the low bulk prices quoted herein, we charge for putting up in smaller sealed packages, as follows:

**In Ounces.**—One cent per ounce.

**In Quarter-Pounds, Pints, and Quarts.**—Two cents for each package.

**In Two-Quarts and Four-Quarts.**—A charge of three cents per package.

**TERMS OF CREDIT.**—To regular customers and well-known houses of established credit, all bills bought from this Catalogue are due June 1st, without regard to date of purchase. All accounts are subject to sight draft on June 10th if payment is not received previously by mail. Goods purchased after June 1st are payable on October 1st and subject to sight draft.

**Bills purchased on special quotations,** made by letter or telegram, are due three months from date of invoice, or subject to a discount of one and a half per cent. if paid within ten days.

**Grass and Clover Seeds, Onion Sets, and Seed Potatoes** in quantity are invariably **net Cash.**

**Unknown correspondents** desiring credit are requested to give satisfactory reference in Philadelphia or New York.

**Terms for Cash.**—We allow a discount of **One Per Cent. a month** on all bills (at Catalogue prices) paid before June 1st.

**Shipping Instructions** should be sent with each order, and will be followed carefully. Otherwise we shall use our best judgment as to route.

**The Prices Quoted** are those ruling at this date. We expect to adhere to them through the spring, except in cases where important changes in the market show that we can reduce our prices, when we shall be governed by the market. **10 lbs. and over will be supplied at the rates per 100 lbs.;  $\frac{1}{2}$  lb and  $\frac{1}{4}$  bushel at the pound and bushel rates; but smaller quantities will be subject to a higher charge.**

**Seeds by Mail.**—When desired, small packages will be forwarded by mail at 8 cts. per pound, 10 cts. per quart on corn, 15 cts. per quart on beans and peas, extra.

**NO CHARGE for Packing or Cartage.**—Bags and boxes are *Charged at Cost*. After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases. **Insurance** effected only when so directed.

**WE DO NOT COMMISSION SEEDS.**—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

## Discounts TO THE TRADE From our Retail Prices.

In our retail Catalogue—**BURPEE'S FARM ANNUAL FOR 1902**—are many varieties of seed for which frequently other Seedsmen receive retail orders. We supply

**All Seeds in Packets at 50 Per Cent. Discount.**

**500 Packets or more at 60 Per Cent. Discount.**

Small quantities from our retail Catalogue, which cannot be invoiced at the low pound or bushel prices quoted herein, are charged at the following rates of discount from retail prices:

<b>Seeds by the Ounce,</b>	<b>40</b>	<b>per cent. discount.</b>
<b>Seeds by the Quart or Pint,</b>	<b>33<math>\frac{1}{3}</math></b>	<b>"</b>
<b>Seeds in Collections,</b>	<b>40</b>	<b>"</b>
<b>Potatoes by the Pound,</b>	<b>40</b>	<b>"</b>
<b>Bulbs in Collections,</b>	<b>20</b>	<b>"</b>
<b>Roses and other Plants,</b>	<b>20</b>	<b>"</b>
<b>BOOKS on Garden Topics,</b>	<b>40</b>	<b>"</b>

At the above liberal rates of discount the goods travel at expense of purchaser, and on seeds, etc., sent by mail, the cost of postage will be added to the invoice.

**Cable Address, BURPEE, Philadelphia.**

## THE NEW BURPEE BUILDING,

Philadelphia, January 16, 1902.

### To Dealers in Seeds.

Burpee's Seeds cost more to produce and consequently the prices are necessarily a little higher than the usual market rates for ordinary commercial grades,—but Burpee Seeds are worth more!

Better seeds can not be had at any price, while high-grade seeds of equal quality can not be bought for less money. We are content with a moderate profit over the actual cost of production.

Burpee's Seeds are absolutely the best seeds that can be grown. This is proved every year by thousands of first prizes won by their products at State and County Fairs throughout America. See "Prize Supplement."

Burpee's Seeds are decidedly the most popular and, therefore, the easiest to sell. This is proved by the fact that annually we supply seeds direct to many more planters than do any other growers in the world.

Burpee's Seeds are the most thoroughly tested. This statement must rest upon our own assertion unless you will take the trouble to visit the leading seed grounds, including Fordhook Farms.

While prices in this catalogue have been carefully fixed on the basis of actual values, yet, as we employ no travelers we are always prompt to quote special prices by mail or telegram. Please write or wire us if you are offered first-class seeds of equal quality, by reputable seedsmen anywhere, at lower prices.

We seek the trade of all merchants who appreciate the prime importance of quality. No feature of our business is more gratifying to us than the steady increase in our wholesale trade,—notwithstanding the close competition of modern methods, where so many "jobbers" seem to think that "cut prices" alone appeal to the dealer.

We shall always strive to deserve your confidence, and trust to hear from you frequently throughout this season.

Yours truly,

PHILADELPHIA, PA.

SEED GARDENS and Trial Grounds at FORDHOOK FARMS, Doylestown, Pa.

# Telegraphic Cipher (or Cable Code)

## FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need be placed only before the first. For example:

**Arad Navy, Purity, Arnhem Prima, Lottie, Malmo Balcony**, would mean, ship at once, cheapest route, ten pounds each NAVY BLUE and SADIE BURPEE SWEET PEAS (white-seeded), five hundred packets each BURPEE'S PRIMA DONNA BUSH SWEET PEA and LOTTIE ECKFORD CUPID SWEET PEA, and ten bushels BURPEE'S STRINGLESS GREEN-POD BEANS.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

**IMPORTANT.**—This telegraphic cipher must be used ONLY on orders by telegraph or cable, and never in written orders sent by mail.

Our Cable Address is BURPEE, Philadelphia.

# BURPEE, Philadelphia, Is Our Registered Cable Address.

All foreign customers are requested to advise us of their **shortest cable address**. Customers in America who wish to telegraph will also, occasionally, find it useful to use the following additional code.  Please note the **code-words** below that would be used in our **reply**, either by cable or telegram.

## FOR OFFERS AND INQUIRIES.

CODE-WORD.	TRANSLATION.
<b>Daubling</b> .....	Telegraph your lowest prices for .....
<b>Dean</b> .....	Mail your lowest prices for .....
<b>Decoy</b> .....	Mail your lowest prices for ....., and send samples.
<b>Defend</b> .....	Telegraph when goods can be shipped.
<b>Defender</b> .....	Advise immediately by mail how soon goods will be shipped.
<b>Deform</b> .....	Can you offer for acceptance by mail .....
<b>Deject</b> .....	Can you offer any .....? If so, telegraph prices.
<b>Delude</b> .....	Can you offer any .....? If so, mail prices.
<b>Derange</b> .....	Telegraph quantities you can offer of following, with prices.
<b>Descend</b> .....	State by letter quantities you can offer of following, with prices.

## Code-words that will be used in OUR ANSWERS.

<b>Dab</b> .....	{ In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations the varieties named below, provided they are unsold upon receipt of your order.
<b>Dacite</b> .....	We accept your order for .....
<b>Dagger</b> .....	We accept your order for ....., and shall ship at once.
<b>Dainty</b> .....	We accept your order for ....., and shall ship as directed.
<b>Damsel</b> .....	We offer you for immediate acceptance, subject to being unsold.
<b>Dance</b> .....	We accept your offer and shall ship as directed.
<b>Dapper</b> .....	Cannot accept your order for .....
<b>Dapple</b> .....	{ Part of your order went forward by freight on ..... expect to ship balance .....
<b>Darby</b> .....	{ Part of your order went forward by express on ..... expect to ship balance .....
<b>Dardanus</b> .....	Please repeat your message, it is not clear.

## Code for positive ORDERS.

<b>Dargie</b> .....	Send immediately by <i>express</i> following seeds at catalogue prices.
<b>Darken</b> .....	Send immediately by <i>freight</i> following seeds at catalogue prices.
<b>Darnel</b> .....	Send immediately by <i>mail</i> following seeds at catalogue prices.
<b>Dare</b> .....	Send immediately the following by <i>freight</i> , per special quotations.
<b>Dared</b> .....	Send immediately by <i>express</i> the following, per special quotations.
<b>Darling</b> .....	Send immediately by <i>mail</i> the following, per special quotations.
<b>Dasher</b> .....	{ Send at once following ..... ; let the other seeds follow as quickly as possible.
<b>Dashing</b> .....	{ Have you shipped our order? If not, increase if possible our order for ..... to ..... pounds (bushels).
<b>Datary</b> .....	{ Send ..... immediately by express. Let balance of order follow by freight.
<b>Dation</b> .....	Duplicate our last order.

**Foreign Orders** are invoiced at the **lowest prices** prevailing upon **date of shipment**. In no case (except on Potatoes and farm seeds, subject to fluctuations) will prices be charged higher than quoted herein, while in **case of decline** in any lines our foreign customers (who, of course, cannot be kept so well posted in the value of American seeds) will receive full advantage of any **lower prices** that we may be quoting. Our export trade is increasing every year, and dealers, even in the most distant countries, who intrust their orders to us, can rely upon the same close attention and equally the **most favorable prices** that we are making at the same time, for the same quality and quantity, to American seedsmen.

# Best Seeds that Grow for 1902,

Tested and Proved at our Fordhook Farms.

THIS PACKAGE (IF UNBROKEN) CONTAINS ONE OUNCE OF

Here follows the same "electrotyped" label as printed on our packet bags,— giving in full the name of the variety, and in case of the more important Vegetables and Flowers, also an illustration, description, and directions for culture. Every package bears our full firm name, while the more than one hundred varieties of Vegetables which have been introduced by us are marked also with our registered trade-mark monogram.

Every ounce-package is **dated** as above.

Packets, although not dated (because the electrotypes generally require the entire front of the bag), are all filled with the same choice quality of the **Best Seeds that Grow for 1902**.

**W. ATLEE BURPEE & CO., Seed Growers.**

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest. It was brought to our notice that some merchants would buy a bill of seeds from us, obtain copies of our catalogues and show-cards, and then purchase a portion of their supplies from other seedsmen, who, growing "cheap seeds," could sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention four years ago that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years. Therefore we announced that—

**Hereafter we will sell Burpee's  
Seeds ONLY in sealed packages.**

Packets and ounces, in *Water-tight Manilla Bags*, are sealed, and bear, plainly printed, either **our Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, in paper bags, have pasted across the top a **green label**, worded as follows:

**BURPEE'S SEEDS THAT GROW  
For 1902.  
Genuine Only if this Seal is Unbroken.**

**SEEDS IN BULK**,—that is, Peas, Beans, etc., by the peck or bushel, and quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal**.

This plan will be a protection to honest merchants from competition with other seeds falsely claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

**LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION  
CAN BUY SEEDS IN BULK FROM US, AS HERETOFORE.**

While every sack is sealed, the contents can be handled as desired.—except that they must not be sold as **BURPEE'S SEEDS, unless in original packages.**

# Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

☞ This list cancels all previous quotations. ☞

☞ A **Telegraphic Cipher** (or **Cable Code**) is attached to each variety, by which orders can be wired at little expense,—using also our code for weights and measures as given on pages 2 and 3. For example:

**Darken Pelew Balcony** would mean: Send immediately, by fast freight, forty bushels of BURPEE'S STRINGLESS GREEN-POD BEANS at catalogue price.

**Dargie Arad Cage** would mean: Send immediately, by express, ten pounds of best select JERSEY WAKEFIELD CABBAGE at catalogue price.

**Darnel Amoy Lantern** would mean: Send immediately, by mail, three pounds of seed of BIG BOSTON LETTUCE.

Telegrams should be addressed,

**W. ATLEE BURPEE & CO., Philadelphia.**

Our cable address is: **BURPEE, Philadelphia.**

## True Dark STINSON BEET.

Excellent for the open garden, this is particularly valuable for forcing, because it produces less foliage than any other variety. They can be

grown close together, four inches apart in the row being quite sufficient. The roots are smooth and regular in form ; the skin is dark blood-red. The flesh is fine grained and free from woodiness, even when fully matured. Of a rich color ; the beets cook dark blood-red. *See illustration*, which was engraved from a photograph.

Wholesale price: Per lb. 32 cts.;

10 lbs. at 28 cts. per lb.

### Burpee's BEST-EARLY Cauliflower.

Named and introduced by us in 1887, this grand variety has proved to be, as claimed, the **BEST-EARLY Cauliflower** in cultivation. It has attained its present perfection after years' intelligent selection, and is remarkable both for its *extra earliness* and *certainty to head*. In these two important features no other cauliflower can equal it. We would also strongly recommend **Burpee's "Dry-Weather."**

NEW GOLDEN SELF-BLANCHING CELERY.

### NEW GOLDEN SELF-BLANCHING CELERY.

See Colored Plate on front cover page of the Farm Annual for 1902.

This variety, *first introduced in America by us in 1881*, is decidedly better in quality than the *White Plume*. It is ready for use nearly as early, blanches as easily, and is larger in size as well as finer in quality. It is of dwarf, compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear waxen yellow. When grown in rich, moist soil the stalks are numerous, each plant being fully as thick through as the largest of the tall late sorts, and with a very large, solid heart of beautiful golden-yellow stalks and leaves. The stalks are crisp and solid, free from stringiness and of delicious flavor. The genuine selected strain is quite scarce this season, and merchants should be careful of whom they obtain their supply of this important variety.

The Famous "Rocky Ford" Melon is the "Netted Gem" introduced exclusively by us in 1881.

For impartial testimony of this fact (so well known to all seedsmen willing to admit the actual truth), we would refer merchants to page 43 of BURPEE'S FARM ANNUAL FOR 1902, or to page 52 of "BURPEE'S BLUE LIST." Our strain is *extra fine*. We are quite sure it is altogether unsurpassed,—the very best seed in the market to-day of the now famous "ROCKY FORD" Melon. If you are offered a lower price, do not be tempted to handle inferior seed of this famous melon, but write to us, stating quantity required, for **special quotations on large lots.**

If you are led by low prices to purchase Onion Seed from unknown or doubtful sources, **you should test the vitality** before selling same to your customers. Compare such tests with the percentage of growth of **New Seed** purchased direct from us or from other growers whom you know to be trustworthy, and such germination tests alone will show that **the lowest priced Onion Seed is NOT always the cheapest.** We will not be undersold on first-class **High-grade Seed.**

### ONION SETS.

All our Peas are hand-picked and of the best samples possible to produce in the past unfavorable season. While on some varieties we can supply in quantity, it must be distinctly understood that on others (notably *Extra Earlies*, both smooth and wrinkled) we will decline large orders, unless accompanied by orders for other seeds, of which there is not such "a fearful scarcity."

#### Caution!

Beware of the cheaper *Bull Nose* or *Ruby King* Pepper seed being sold as *Chinese Giant*.  We notice that a European dealer is offering so-called *Chinese Giant Pepper Seed* to the American trade at fifty cents per pound! Some dealers, not knowing how few seeds each of these gigantic fruits contain, may import this cheap seed.

### We Devote Special Attention to Growing TOMATOES.

By the most careful continued selection we are enabled to offer strains which produce uniformly smooth fruits, of the most solidly fleshy character and fine quality. These strains have been developed, however, at the expense of the *quantity* of seed produced, and the price of this high-grade seed is necessarily higher than that at which inferior strains can be sold.

**“Proved by Test.”** Unless you should order some variety that we do not catalogue and instruct that we get it for you (when we shall send it at your risk,—in its original package), you may be absolutely sure that you will receive from us only such stocks of strictly high-grade seeds as have been proved absolutely **“Best by Test.”**

Many seedsmen have much to say about tested seeds, but unfortunately with most dealers this applies only to blotter tests for vitality. Our tests for vitality are *soil* tests. While necessary that *seeds grow*, it is of prime importance that they shall be of choicest selected strains, such as can be relied upon to produce products **“true to type.”** This can be learned only by thorough field trials. No other seedsmen in America make so many or such complete trials as are conducted annually at our famous FORDHOOK FARMS.

**Lower Prices** could easily be quoted were we not practical growers and testers of seeds ourselves. Were we willing to take simply the "say so" of other growers in America and Europe without proving the stocks in greenhouses, frames, and open field trials, we should save thousands of dollars annually. In that case, however, we would never have built up and maintained,—in spite of all competition,—a business that is known to be **the largest direct mail-order seed trade in the world.**

At FORDHOOKE FARMS we have not only the most extensive trial grounds in America, but also grow selected stocks of many of the choicest vegetables and flowers that can hardly be had of equal quality elsewhere.

# 180 Varieties of Tall Sweet Peas,—

## A Complete List of all Known Varieties.

By hundreds of thorough trials made every year at our famous FORDHOOK FARMS we know SWEET PEAS and the merits of all the many novelties as introduced. Keeping Purity and High Quality, rather than low prices, our first aim, we have become recognized as

### Headquarters for Sweet Peas in America.

Each is *pure* and *true to name*,—vastly superior to the “Cheap Seed” so largely grown without the proper care in the constant selection that is absolutely necessary to maintain first-class stocks.

**OUNCES** of Sweet Peas are **one-tenth** pound prices, **except** that no variety will be supplied at less than **four cents per ounce**. Varieties priced at 35 cts. or less per pound are charged at **ten cents per 1/4 pound**. Varieties priced at 45 and 50 cts. per pound are charged at 15 cts. per  $\frac{1}{4}$  pound, while those priced at 70 cts. per pound are charged at 20 cts. per  $\frac{1}{4}$  pound.

We refer to our Retail Catalogue for full descriptions of NOVELTIES not specially described herein, and should suggest that with the present widespread interest in Sweet Peas it will pay seedsmen generally to offer more of the **NEW SORTS**, as the margin of profit is greater than on standard varieties.

**DOUBLE SWEET PEAS.** From most carefully selected stock seed, saved only from the best plants bearing double flowers, we offer the following varieties:

Apple Blossom,  
Butterfly,  
Duke of Clarence,

White,  
Waverly,  
Boreatton,

Captain of the Blues,  
Bride of Niagara,

Senator,  
Splendor.

Each of the above DOUBLE SWEET PEAS, 35 cts. per lb.  
Ten Mixed DOUBLE SWEET PEAS (Cable word—*Xerxes*), 30 cts. per lb.; \$27.50 per 100 lbs.

\* Varieties marked with an asterisk (\*) produce flowers of finest form and largest size.

# New Colors of Burpee's Bush Sweet Peas.

Now first introduced for season of 1902.

## Burpee's Bush Sweet Pea,—SADIE BURPEE,—(Black-Seeded).

This variety we had not intended introducing until 1903; but on January 9th received a telegram from our growers stating that the crop of the *Blanche Burpee Bush Sweet Pea* (of which you probably noticed a description in our Advance Price-List and which you will find fully described in the Farm Annual and Market Gardeners' Price-List for 1902) is a complete failure, and that there will be no seed whatever for us this season. This we regret extremely, but in an unfavorable season like this it is not at all surprising. The *black-seeded Sadie Burpee* is of the same bush growth as the other varieties. The flowers are of large size, opening with a flush pink color, changing to white later, and are borne at the top of long, stiff, slender stems. As the stems of the flowers can be cut with some of the neat attractive foliage, they are most desirable for bunching in bouquets or used as floral decorations. *See small illustration of a plant of the Bush Sweet Pea herewith, engraved from a photograph.* Per pkt. 15 cts.; 2 pkts. for 25 cts.

Electro  
\$1.25.

BURPEE'S NEW BUSH SWEET PEA.

## Bush,—“PRIMA DONNA.”

The “*PRIMA DONNA*” is a decided acquisition to this grand new race of Sweet Peas, in which the plants grow only fifteen to eighteen inches high when in full flower and which, while branching freely, are stiffly erect and self-supporting.

Like those of the tall-growing *Prima Donna*, the flowers are of a beautiful soft-pink tint and self-colored,—the most exquisite shade of flesh pink, a true peach blossom tint. Standard slightly folded and the upper edges heavily rolled; wings nearly erect and well spread, making a fine hooded effect. *Sold only in our sealed packets.* Per pkt. 15 cts.; 2 pkts. for 25 cts.

**WAB**

This is a perfect reproduction in flower of the tall-growing *Senator*, one of the very finest striped varieties, combined with the very distinct bush type of growth, which, while well branched and spreading, is *always stiffly erect without support* and only fifteen to eighteen inches high when in full flower. The flowers, while not so large as those of the tall *Senator*, are finely formed, the standard being broad and pointed; wings well spread and heavily rolled. Both standard and wings are silvery gray, heavily striped with brownish claret, changing to a violet-purple as flowers remain open. Per pkt. 15 cts.; 2 pkts. for 25 cts.

## Bush,—“SENATOR.”

This is a perfect reproduction in flower of the tall-growing *Senator*, one of the very finest striped varieties, combined with the very distinct

bush type of growth, which, while well branched and spreading, is *always stiffly erect without support* and only fifteen to eighteen inches high when in full flower.

The flowers, while not so large as those of the tall *Senator*, are finely formed, the standard being broad and pointed; wings well spread and heavily

rolled. Both standard and wings are silvery gray, heavily striped with brownish claret, changing to a

violet-purple as flowers remain open. Per pkt. 15 cts.; 2 pkts. for 25 cts.

Each of the above is sold only in our original sealed packets.

Regular packets, each containing about forty seeds:

Wholesale, \$7.50 per 100 packets; \$60.00 per 1000 packets.

Five hundred packets supplied at thousand rates.

## BURPEE'S BUSH SWEET PEAS.

This is a new race of entirely distinct growth, first introduced by us in 1899. It has proved very satisfactory in growth and freedom of flower, particularly in light warm soils. The plants are erect, fifteen to eighteen inches high when in full flower, but branching freely so that the close bushes are frequently fifteen inches

and more in diameter, composed of short erect branches with abundant light-green foliage. The tendrils at ends of the leaves clasp themselves closely to the adjoining branches, so that the whole plant is held quite erect, though sufficiently open to admit of a freer circulation of air than in the low compact form of the *Cupid* type. The flowers, while not so large, are of as fine form and beautiful coloring as the *Tall* varieties, and are quite distinct from the *Cupid* type in being borne on long slender stems. As the stems of flowers can be cut with some of the neat attractive foliage, they are most desirable for bunching in bouquets or used as floral decorations.

## BURPEE'S BUSH GRAY FRIAR.

The first variety of this most distinct type. It is identical in coloring with our beautiful *Gray Friar*. The flowers are borne in twos and threes on quite long stems. The standard is large, stiffly erect, and broadly spreading; wings wide and well spread, edges slightly rolled. The coloring, in suffused shadings and watered veinings, is of lavender-purple on a silvery-white ground. Per lb. 55 cts.; 10 lbs. at 50 cts. per lb.

## BURPEE'S BUSH MONARCH.

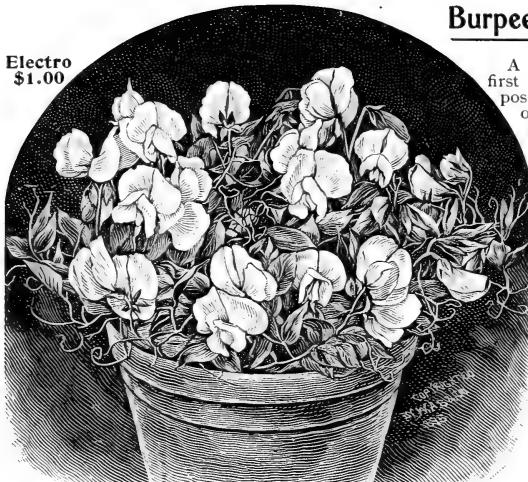

Fine large flowers, generally three in a cluster at top of long stiff stems. The rich dark coloring of the flowers contrasts most admirably with the light-green foliage. Standard large and wide, well spread, and of a deep claret or wine-brown; wings heavily rolled, rich purple. Per lb. 70 cts.; 10 lbs. at 65 cts. per lb.

## BURPEE'S BUSH BLANCHE FERRY.

Plants of true bush growth, with a profusion of fine large flowers of the ever-popular coloring, pink-and-white, as seen in tall *Blanche Ferry*, *Burpee's Earliest of All*, and *Pink Cupid*. The plants grow only fifteen inches in height, come into flower early, and are almost completely hidden by the cloud of beautiful blossoms, which come in threes on a long stem. The standard is a soft pink and the wings white, occasionally faintly suffused with rose-pink. Branches are slender, and plants can be grown closely together in a continuous row. *Sealed packages only.* Wholesale: \$4.00 per 100 pkts.; \$12.50 per 100 half-ounce packages; \$24.00 per 100 ounce packages.

## Burpee's Dwarf CUPID SWEET PEAS.

Electro  
\$1.00

NEW DWARF SWEET PEA,—"CUPID." FLOWERS WHITE.

The above engraving, reduced in size, is an exact reproduction of an illustration in THE GARDENER'S CHRONICLE, London, June 29, 1895, of one of the pot-plants exhibited at the Royal Horticultural Society, June 25, 1895, where by unanimous vote we received an Award of Merit for CUPID,—the highest indorsement possible.

black-seeded varieties are fully as hardy and vigorous as those of the tall-growing sorts, with similar seed, and can be planted successfully quite early in spring when the trees are starting out in leaf. The white-seeded or more delicate skin, which will give best results if planted when the weather has become warm enough to plant corn, and can be most successfully germinated by pursuing Mr. Hutchins' new method described in our leaflet, "HOW TO GROW SWEET PEAS," which is sent free if requested on the order. In dry locations, the seed may be sown rather thickly in a drill, as with other sorts, and the plants allowed to grow in a close compact row, forming a beautiful ribbon or border of dark rich green, thickly starred with the brightest blossoms. For heavier moist soils we recommend planting in slightly elevated beds and having the plants stand ten inches or more apart.

**ALICE ECKFORD CUPID.** Flowers, borne in close clusters of three, are identical in size and coloring with those of the tall *Alice Eckford*. Standard is silvery white with faint stripe of silvery rose in center fold, with suffused shadings of soft rosy pink at the base. Wings of a clear white. **Per lb. 35 cts.; 10 lbs. at 30 cts. per lb.**

**BOREATTON CUPID.** Flowers of good size, fine bold form, and rich dark coloring. Standard self-colored in a rich wine-brown, with deeper veinings and a satin-like finish. Wings lie closely to the semierect keel, deep mauve in shading, underlaid with rosy purple. **Per lb. 40 cts.; 10 lbs. at 35 cts. per lb.**

**BURPEE'S BEAUTY CUPID.** The handsome large flowers are borne most profusely in clusters of three. The standard is of unusual breadth, with heavily rolled edges, giving a deeply hooded effect; wings broad and erect. Standard rich rose-pink, shading to nearly white at the edges and slightly striped with carmine at the base. Wings suffused rosy carmine, deepening at the edges. **Per lb. 40 cts.; 10 lbs. at 35 cts. per lb.**

**COUNTESS OF RADNOR CUPID.** *The Countess of Radnor* is one of the most popular tintings of delicate lavender. In this new Cupid we have the same charming tint exactly reproduced with the true compact-spreading Cupid growth. Flowers are of immense size, even larger than those of the tall Countess, and are borne in the greatest profusion, coming three and four to a single stem. **Per lb. 50 cts.; 10 lbs. at 45 cts. per lb.**

A new and entirely distinct race of Sweet Peas, first introduced by us in 1895, differing as widely as possible from the usual tall vine-like growth, being of low, very compact-spreading form. Plants are seldom more than six inches in height and form a dense mat of richest green foliage fifteen inches or more in diameter. The flowers are *fully equal in size* to those of the tall-growing varieties, but are placed closely together, generally three or four at the top of a stout stiff stem, seemingly poised just above the surface of the dark-green foliage. The stems branch freely with close joints, and are thickly set with dark-green leaves. The close-spreading growth lying on the surface of the soil serves to keep the latter cool and moist, protecting it from the burning rays of the sun. By reason of this close, dense growth, these Cupid varieties have not always proved so successful when planted where the tall varieties grow most luxuriantly; the close growth of foliage does not dry out so quickly after heavy rains as the tall sorts, which are supported on brush and exposed to the drying influence of the air. For light dry soils, however, where the tall sorts quickly dry up or are injured by blight and insects during severe hot weather, CUPID SWEET PEAS give the greatest satisfaction,—seeming to revel in the summer heat and flowering in rich profusion. In many sections, the past few seasons, most excellent results have been obtained by planting them in long rows, borders, or masses during the summer months. Protracted dry weather induces them to grow with the greatest vigor and flower most freely. The

standard is of a clear bright rose-pink. The wings are lightly suffused with faint rose, but so slightly that they seem pure white in contrast to the bright glowing pink of the standard. A row of this variety in full flower is bright beyond description, having the appearance of being strewn with bright-pink rose-buds. **Per lb. 35 cts.; 10 lbs. at 30 cts. per lb.**

**FIREFLY CUPID.** Flowers of good size and intense glowing color. The large flowers, borne in close clusters of three, have dazzling scarlet effect of *Firefly* and seem even more intense in glowing color as contrasted with the close dark-green foliage. **Per lb. 50 cts.; 10 lbs. at 45 cts. per lb.**

**WHITE CUPID.** The first of this new "CUPID" dwarf race. It grows only six inches high and is of close-spreading habit, with rich deep-green foliage. Flowers are borne three on a stout stiff stem, and of the clearest snowy whiteness. **Per lb. 30 cts.; 10 lbs. at 25 cts. per lb.**

**PRIMROSE CUPID.** The flowers are self-colored in a rich creamy or primrose tint, identical with those of the tall *Primrose*. It is white-seeded and should not be planted until the trees are out in leaf. **Per lb. 35 cts.; 10 lbs. at 30 cts. per lb.**

## Burpee's FIFTY NEW CUPIDS, in Mixture.

This Special Mixture includes all the above, two others, and also *forty colors and varieties* which have not yet been separately introduced,—the different colors being blended in suitable proportions. This New Mixture alone contains most of the shades in the Tall Sweet Peas. The flowers range in color from pure white and light pink to dark red and from light lavender to deep purple, while there are several attractive and unnamed striped varieties. We have grown a large crop and are able to sell at so moderate a price that we are sure this superb and showy mixture will make thousands of new friends for our unique DWARF CUPID SWEET PEAS.

**Per lb. \$1.00; 10 lbs. at 90 cts. per lb.**

## New Dwarf CUPID Sweet Pea,—Burpee's "ROYALTY."

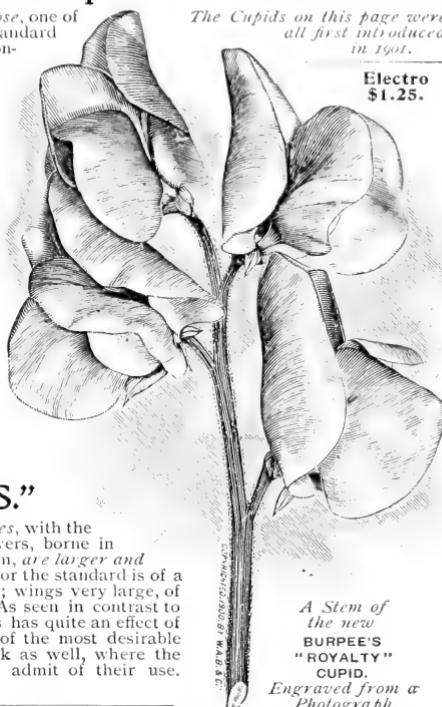

This beautiful new Cupid resembles the tall *Royal Rose*, one of the very finest self-colored pinks, but the very broad standard makes an even *larger flower*, while the coloring is considerably *deeper and richer in tone*,—hence the new name "ROYALTY." The flowers are of extra large size, well hooded, and of true grandiflora type. The flowers come generally *four on a stem* and closely set together at the top. They are *most desirable for boutonnieres and for designs of cut-flowers*, as this shade of pink is highly esteemed. **Per lb. \$1.00; 10 lbs. or more at 90 cts. per lb.**

## Dwarf CUPID,— "APPLE BLOSSOM."

The flowers are *grand large size*, beautifully hooded and *borne four on a stem*. The standard is very large and broad, slightly pointed with edges well rolled, deeply suffused and veined with deep rose on a silvery ground, shading deeper in the center; wings are quite broad and lie closely about the semi-erect keel; they are heavily shaded in the center with soft rose. **Per lb. \$1.00; 10 lbs. at 90 cts. per lb.**

## New CUPID,— "CAPTAIN OF THE BLUES."

It retains all the beauty of the tall *Captain of the Blues*, with the very dwarf growth of the Cupid varieties. The flowers, borne in close clusters of three at the top of a very stiff stout stem, are *larger and finer* than the tall *Captain of the Blues*. In color the standard is of a reddish-purple tint, heavily suffused with violet; wings very large, of a rich violet-purple,—approaching deep blue. As seen in contrast to the rich dark-green foliage, the mass of flowers has quite an effect of rich *deep blue*. This new variety will be one of the most desirable for bedding and borders, and also for cut-flower work as well, where the shorter stems (as compared with the tall sorts) will admit of their use. **Per lb. \$1.00; 10 lbs. at 90 cts. per lb.**

A Stem of the new BURPEE'S "ROYALTY" CUPID.  
Engraved from a Photograph.

## Burpee's Dwarf CUPID Sweet Pea,—"STELLA MORSE."

This grand new Cupid is identical in rich coloring with the tall *Stella Morse* as introduced by us in 1898, and which is still the most distinctly colored of all the so-called "yellow" Sweet Peas. The flowers of the Cupid strain are distinct from those of the tall parent variety in that they come only two on a stem, but the shading is so charming that this feature is easily overlooked. The standards are also shorter and broader, making the spreading wings equally prominent. The whole flower has a closely hooded appearance similar to that of *Burpee's Beauty Cupid*. The upper edges of the standard are heavily rolled, giving a sharply pointed effect, while the keel is stiffly erect, holding the broad wings closely to the standard. The ground color is a rich creamy buff, tinted with apricot, while the inner portion of the wings is delicately shaded with soft rosy carmine. **Per lb. \$1.00; 10 lbs. or more at 90 cts. per lb.**

## Burpee's DOLLAR BOX for 1902

Contains Thirty-three New and Superb Sweet Peas.

In order to give the greatest possible value we place at the bottom of each DOLLAR BOX our special collections of the "Best Baker's Dozen" and the "Eight Elegant Sweet Peas," as advertised on our "Big Yellow Circular."

These two collections, each containing its appropriate LEAFLET on CULTURE, include *Admiration*,—*Aurora*,—*Blanche Burpee*,—*Burpee's Earliest of All*,—*Fascination*,—*Lady Grisel Hamilton*,—*Lady Mary Currie*,—*Majestic*,—*Mrs. Fitzgerald*,—*Mrs. Dugdale*,—*Navy Blue*,—*Othello*,—*Prima Donna*,—*Stella Morse*,—*Sunproof Salopian*,—*Snappingdragon*,—*New Giant-flowered Chamberlain Cupid*,—our Special Mixture of Fifty New Dwarf Cupids,—our New Mixture for 1902 of Forty-eight New Colors in *Burpee's Bush Sweet Peas*,—*Fordhook Fancy Flaked Sweet Peas*, and the regular stock of *Burpee's Best Mixed New Giant Sweet Peas*.

For 50 Cts. you can buy all above twenty-one packets as advertised in our two collections on the "BIG YELLOW CIRCULAR."

For \$1.00 we include in the box,—besides all the above,—also a regular-size packet each of the new *Burpee's Golden-Rose*,—*Burpee's American Queen*,—the new "White with Pink Edge,"—and also the new *Eckford's Calypso*,—*Countess of Lathom*,—*Duchess of Westminster*, and *Lord Kenyon*; also a large packet each of the *New Mont Blanc*,—*Black-seeded Sadie Burpee*,—*White-seeded Sadie Burpee*,—*Countess Cadogan*, and a full ounce of the unequalled *Burpee's Special New Giant-flowered Mixed* for 1902.

These 33 Packets make the most complete "DOLLAR BOX" of Sweet Peas ever offered. Even taking advantage of the two Special Collections, as advertised on the *Yellow Circular*, with the other packages, these 33 packets, outside of this box, would cost \$1.80,—while at the usual retail prices "per packet" these thirty-three varieties have a total retail value of \$2.70.

**WHOLESALE:** We supply these complete "Dollar Boxes" at 60 cts. each; or, if ordered to be sent by mail, at 70 cts., postpaid.

# Four Fine New Colors for 1902 of the Free-Flowering Dwarf Burpee's Cupid Sweet Peas.

**Burpee's Cupid,—"AMERICA."** In this new variety we offer the brightest striped growth of the Cupid Sweet Pea. The *large flowers* are produced in threes at the top of a stiff stem and are extremely bright and showy, in contrast with the rich dark-green foliage. The standard and wings are very broad and spreading, being of the true grandiflora form, showing effectively the bright blood-red stripings on silvery-white ground. The color is most showy and pleasing. *Sold only in sealed packets.* Wholesale, \$7.50 per 100 pkts.; \$60.00 per 1000 pkts.

**Burpee's Cupid,—"HER MAJESTY."** A very pleasing shade of deep rosy crimson, intensely glowing in the warm sunshine. The color is one of the lighter and softer shades of bright glowing red. The flowers are the same in form and coloring as those of the tall *Her Majesty* (one of Eckford's finest varieties), and are even *larger in size*, the standard being much broader at the base. They are self-colored in a soft shade of rosy crimson, slightly deeper in the wings than in standard. *Sold only in sealed packets.* Wholesale, \$7.50 per 100 pkts.; \$60.00 per 1000 pkts.

**Burpee's Cupid,—"LOTTIE ECKFORD."** In the tall *Lottie Eckford* we have the same beautiful shades and blendings as in the popular *Butterfly*, combined with larger size and more finely finished form. This beautiful blending of most attractive tints will be a great addition to the list of Cupid Sweet Peas, when grown either as a bedding or pot-plant as well as for furnishing small bouquets, etc. The flowers are of large size, with broad slightly rolled standard, and the broad wings widely spreading. Both standard and wings are clear silvery white, outlined or edged with rich purple-lavender with the same color shading the inner portions. Wholesale, \$7.50 per 100 pkts.; \$60.00 per 1000 pkts.

**Burpee's Grand New Giant-Flowered "CHAMBERLAIN" Cupid.** While all our New Cupids have *larger-sized flowers* than the same varieties of the original tall type, this one is truly entitled to the name "**Giant-Flowered**." The extraordinary size of the flowers is emphasized by being produced in wonderful abundance upon such dwarf compact plants. The gigantic flowers are of perfect form, fine substance, borne in clusters upon stiff stems and are beautifully striped rosy pink upon white ground. Although such a *profuse bloomer*, it is a *shy seeder*, and while distributed last season at the rate of "*twelve seeds for 25 cents*" it is consequently practically *new for 1902*. Having had a large area planted we can now supply this new **Giant-Flowered Cupid** at a moderate price. *Sold only in our sealed packages.* Wholesale, \$4.00 per 100 pkts.; \$12.50 per 100 half-ounce packages; \$24.00 per 100 ounce packages.

**Special for 1902.** While these new colors of **BURPEE'S BUSH and CUPID SWEET PEAS**, as usual the first season, are *sold only in our sealed packets*, we have lowered the price to 15 cts. per pkt.,—or two packets for 25 cts. retail; and each packet contains **about forty seeds**.

## Forty-Eight New Colors in Mixture of the Beautiful BURPEE'S BUSH SWEET PEAS.

In order to still further—and more quickly—popularize the distinct new dwarf compact-growing type of sweet peas, first presented by us in 1899, and already most favorably known in England and America as **BURPEE'S BUSH SWEET PEAS**, we have decided to offer a mixture of **forty-eight beautiful new colors for 1902**. These are all *entirely distinct* from the separate named varieties, and, while many of them are not sufficiently "established" to be worthy of introduction *under color*, **all come true to the dwarf, compact "bush type."** Many who have admired **BURPEE'S BUSH SWEET PEAS**, but expressed regret that this attractive race existed in such few colors, will hail with delight this special "trial-grounds mixture" of **forty-eight new colors**.

As nearly as the names of the similar tall-growing varieties will describe similar flowers of this bush type we should state that the varieties comprised in this **NEW BUSH MIXTURE** are: *Black*,—*Blue Friar*,—*California*,—*Captivation*,—*Colonist*,—*Countess of Shrewsbury*,—*Create*,—*Dorothy Tennant Striped*,—*Gaiety*,—*Golden Gate*,—*Her Majesty Striped*,—*Juanita*,—*Katherine Tracy*,—*Large Violet Queen*,—*Light Firefly*,—*Light Gaiety*,—*Light Gray Friar*,—*Light Mauve*,—*Light Pink*,—*Light Queen*,—*Lottie Hutchins*,—*Meteor*,—*Mikado*,—*Minnehaha*,—*Modesty*,—*Mrs. Gladstone*,—*Navy Blue*,—*Oddity*,—*Oregonia*,—*Ovid*,—*Peach Blossom*,—*Pink Striped*,—*Primrose*,—*Primrose Mottled*,—*Princess Victoria*,—*Princess of Wales*,—*Purple Prince*,—*Purple and White Striped*,—*Queen Victoria*,—*Ramona*,—*Reddish Mauve*,—*Splendor*,—*Splendor Striped*,—*The Queen*,—*Wawona*,—*Waverly*,—*White and Blue Mottled*, and *White Striped with Lavender*.

We are fully aware that other seedsmen will criticise us in sending out so many distinct seedlings,—that have not been separately introduced,—all in one mixture. And yet long experience has shown that planters generally appreciate our system of being *liberal in the introduction of novelties*, while with the failure in some sections recently of tall sweet peas we are sure that thousands of amateurs and florists will welcome this opportunity to secure a mixed row for cutting of the most attractive new **BURPEE'S BUSH** type, which, as all who have tried it know, is more *sure to flower freely* in unfavorable seasons than tall-growing sweet peas. Seed sold only "*under our seal*." Wholesale, \$4.00 per 100 pkts.; \$12.50 per 100 half-ounce packages; \$24.00 per 100 ounce packages.

**Sweet Peas at Buffalo.** Many of our friends who visited the Pan-American Exhibition during staged for ten days. The Sweet Pea will recall to mind the magnificent display we kept supplied him of forty-six of the best varieties, and although the season was unfavorable Mr. Boettger had no trouble in getting a fine healthy growth on his vines. Not only were our Sweet Peas much admired and awarded premiums, but it was most gratifying to note that all the prize winners in the different classes exhibited by amateurs were also grown from our seed. **BURPEE'S SEEDS are the BEST SEEDS that grow!**

# FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce. Of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. *Not less than one ounce* will be supplied of varieties priced at 15 cts. or less per ounce.

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK FARMS, or by our private growers in America, all are thoroughly tested both for vitality and purity. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold. It is generally admitted that **we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.**

## Thousands of Testimonials

as to the unequaled results from our long-continued and critical work at FORDHOOKE FARMS (largest and most complete Trial Grounds in the Western Hemisphere) could be published, had we the space to spare. Higher authority could not be quoted than "the Wizard of the Pacific Coast," whose fame is world-wide as the greatest living horticulturist. From his home at Santa Rosa, California, October 20, 1900,

## LUTHER BURBANK wrote:

"A careful seedsman's experiment grounds, like yours, it seems to me, are far more useful than any of the colleges or public experiment stations, as it is all practical work. Your Fordhook Trial Grounds were the best of all my Eastern object-lessons, and I had many of them. I had no idea of their extent and value, not only to yourself, but to every one of your customers, and eventually to every one who cultivates the soil."

BURPEE'S SEEDS GROW and are famous for the Uniform Excellence of their Products

# Burpee's New Box of FLOWER SEEDS

THIS box of **CHOICE FLOWER SEEDS**, put up in a neat and attractive style, contains the same **fine quality of fresh seed** as supplied to our own critical retail trade. Dealers, having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

## EACH BOX CONTAINS

### Five 5-Cent Packets each of

ALYSSUM,—Sweet.	NASTURTIUM,—Tom Thumb, New Varieties, Mixed.
ASTER,—Choice Mixed.	NASTURTIUM,—Fordhook Favorite Climbing, Mixed.
“ Finest Mixed Comet.	NASTURTIUM,—Hybrids of Madame Gunter.
BALSAM,—Burpee's Superb Camellia-Flowered, Mixed.	PANSY,—Fordhook Bedding, Mixed.
CALENDULA,—Double, Mixed.	“ Imperial German.
CALLIOPSIS,—Fine Mixed.	PETUNIA HYBRIDA,—Mixed.
CANDYTUFT,—Mixed.	PHLOX DRUMMONDII,—Large Flowering, Mixed.
CARNATION,—Marguerite, Mixed Colors.	“ “ Starred and Fringed.
CENTAUREA,—New Double, Mixed.	POPPY,—Fordhook Fairies, Fine Mixed.
CHRYSANTHEMUM,—Annual Varieties, Mixed.	PORTULACA,—Finest Single, Mixed.
COCKSCOMB,—Dwarf, Mixed.	SALVIA SPLENDENS,—Scarlet Sage.
COSMOS,—All Colors Mixed.	SCABIOSA (Mourning Bride),—Dwarf Double, Mixed.
CYPRESS VINE,—Mixed.	STOCKS,—Dwarf German, Mixed.
DIANTHUS,—Japan and China Pinks, Mixed.	SWEET PEAS,—Eckford's New, Mixed.
GAILLARDIA,—New Double, Mixed.	“ “ Burpee's American Seedlings.
LARKSPUR,—Double Rocket, Mixed.	“ “ Eckford's “Up-to-Date.”
MARIGOLD,—French Double, Dwarf, Mixed.	SUNFLOWER,—Many-Flowered, Double.
MARVEL-OF-PERU (Four o'clock),—all Colors.	VERBENA HYBRIDA,—Extra Fine, Mixed.
MIGNONETTE,—Mixed.	ZINNIA ELEGANS,—Giant Mammoth, Mixed.
MORNING GLORY,—Tall, Mixed.	
“ “ Imperial Japanese.	

In all, 200 Packets of Flower Seeds.

**40 Varieties**, five packets of each, making a total of 200 packets, which, if sold at 5 cts. per packet, amount to a **total retail value of \$10.00**.

**Wholesale Price to the Trade, \$4.00 for the Box complete.**

It can be sent by mail for 20 cts. additional.

## ADDITIONAL PACKETS

of any of the varieties mentioned above, to fill up the box, will be supplied at the uniform price of

**\$2.50 per 100 packets, or**

**\$2.00 per 100 packets**, when 500 packets or more are ordered at one time.

**W. ATLEE BURPEE & CO., Philadelphia, Pa.**

# BURPEE'S NEW CABINET OF VEGETABLE SEEDS.

This is a handsome cabinet, beautifully finished in hardwood, that will be an ornament to any store. It stands 40 inches high and is 30 inches broad, divided into 48 compartments. The front of each packet of seed is shown, while the packets are held in place by a neat metal bar across each compartment. Cost of cabinet alone is **\$3.00**, but we will supply the **cabinet complete**, filled with **1000 packets** of seed as enumerated below, for **\$20.00**.

 The sale of these (at 5 cts. per packet) will allow a clear **profit of \$30.00**, and give the cabinet **Free**.

**Burpee's New Vegetable Seed Cabinet contains 1000 Packets as per List given below.**

6	Asparagus,—Barr's Mammoth.	12	Onion,—Yellow Dutch, or Large Yellow Strasburg.

of any of the varieties mentioned above, to fill up the cabinet, will be supplied at the uniform price of

**\$2.50 per 100 packets, or**

**\$2.00 per 100 packets**, when 500 packets or more are ordered at one time.

 Please tell your customers about

# The BURPEE PREMIUM at State and County Fairs

We hereby authorize the secretaries of every State Fair in the United States to offer a cash prize of twenty dollars for the best collection of Vegetables grown from BURPEE'S SEEDS. We authorize, also, the secretary of every County Fair in the United States to announce, in like manner, a cash prize of five dollars for the best display of the products (vegetables or flowers) of BURPEE'S SEEDS.

**In Case** this offer is not announced in the regular PREMIUM LISTS for 1902 of any State or County Fair, and a customer of ours would want to compete, we shall waive this requirement and still pay the same cash prizes,—provided the products of BURPEE'S SEEDS exclusively have won the Society's regular prize for "Best Display of Vegetables." SHOW CARDS furnished, if desired.

**Photographs.** We desire to have a photograph of exhibits winning our prize at STATE FAIRS, and in return shall send a dollar, in addition to the prize of \$20.00, to each one sending such a photograph, while for the best photograph we will pay a special prize of ten dollars extra.

**\$100.00 Extra.** We will pay also one hundred dollars cash as an extra prize to exhibitor who wins the greatest amount of prizes for products of Burpee's Seeds in 1902. As Please bear in mind that all reports of prize awards must be received on or before November 1, 1902.

## The Record of Burpee's Seeds for Producing Prize-Winning Vegetables and Flowers is Unequaled.

It would surprise all except regular customers, who well know the superiority of BURPEE SEEDS, had we space to enumerate the large proportion of first prizes at leading State and County Fairs that have been won by the products of BURPEE'S SEEDS exclusively.

**In New York** the State Fair First Prize was again won by one of our customers with the products of BURPEE'S SEEDS exclusively. The successful exhibitor at The Great State Fair, Syracuse, 1901, was MR. ALFRED SWEET, of Glendale Farms, Glendale, N. Y., whose total winnings from products of BURPEE'S SEEDS reached the amount of \$957.10 at different fairs. Mr. Sweet won in all 1103 first prizes and 153 second prizes, and wrote us that "every variety of BURPEE'S SEEDS was fertile and brought first prizes in strong competition,"—and that his strongest competition was from others who also used BURPEE'S SEEDS! As At the New York State Fair, at Syracuse, including first prize for best Collection of Vegetables, Mr. Sweet won \$107.00 in prizes. Mr. Sweet also won \$61.00 in prizes at the fair at CAMBRIDGE, N. Y.;—\$59.00 at SANDY HILL, N. Y.;—\$24.75 at WARRENSBURGH, N. Y.;—\$15.00 at BALLSTON SPA, N. Y.;—the large amount of \$338.50 at the fair at WHITE PLAINS, N. Y.;—\$88.00 at POUGHKEEPSIE, N. Y., and \$65.00 in prizes at the fair at CHATHAM, N. Y. The above prizes included first prize for Best Collection of Vegetables at each of these seven fairs in the State of New York.

At the fair at TRENTON, N. Y., Mr. Sweet won \$52.00 in prizes and wrote us that he arrived there too late—"had I got there in time I would have won \$300.00;" at DANBURY, Conn., Mr. Sweet won \$146.85 in prizes. As With this total of \$957.10 in prizes, Mr. Sweet beat all other competitors for the special BURPEE PREMIUM at State and County Fairs in fall of 1901 and hence received "Our Hundred Dollar Special," making his winnings amount to a total of one thousand and fifty-seven dollars and ten cents,—all with the products of Burpee's Seeds exclusively!

**In New York.** Many other first prizes were won by the products of BURPEE'S SEEDS. F. E. STEVENS, Glen Falls, N. Y., won the BURPEE PREMIUM and the societies' first prize for best collections at both the Saratoga County Fair, Ballston Spa, and the Otsego County Fair, Cooperstown. Mr. Stevens wrote us: "I also won a great many single premiums at the fairs this fall on vegetables raised from your seeds. I advertised your seeds quite extensively this fall, as I exhibited at seven different fairs. I can safely place my total winnings at \$300.00. I found your seeds very true to name, which I have not found in all other seed companies that I have dealt with." LEWIS J. BRUNDAGE, Starkey, N. Y., won \$75.75, including first prizes for best displays at Yates County Fair, Penn Yan, and Schuyler County Fair, Watkins. On October 22d Mr. Brundage wrote: "The products of your seeds have won a very large number of prizes for me this fall as usual. I now have a display from the same at the Pan-American. Your seeds always give me the very best of satisfaction and I cheerfully recommend them to my friends." E. B. SOUTHWORTH, Trout Creek, N. Y., won \$78.40 in prizes at three county fairs and writes: "I feel that it is my duty to say that Burpee's seeds are all right and up-to-date." SIDNEY N. TILLEY, Williston, Vermont, crossed the State line and won \$43.00 at Clinton County Fair, Plattsburgh, N. Y. L. P. FRISBIE, Delhi, N. Y., won \$12.45 at Delaware Co. Fair, and wrote, October 7, 1901: "Have used your seed several years and never had a failure caused by poor seed. Had a fine crop of cabbage this year, nearly every plant forming a head, but not having had plants enough of my own I bought a thousand plants grown from other seeds and not more than 50 per cent. formed solid heads. Next year will grow all my plants from your seeds. Long live Burpee and BURPEE'S SEEDS!" L. E. WOODCOCK, Watertown, N. Y., won \$54.00, including both first prizes for best displays at the Jefferson County Fair. FRED. N. TERPENING, West Oneonta, N. Y., won prizes at the fairs at Cooperstown, Oneonta, Morris, and Walton, N. Y., amounting to four hundred and twenty-one dollars and ninety-five cents,—with the products of Burpee's Seeds exclusively!

**Many Other Prizes** in New York, as well as in many other States,—all won in open competition by planters of BURPEE'S SEEDS, are enumerated in—

**Our "1902" Prize Supplement** which will be mailed in January to all known contestants of 1901.

It will be mailed, FREE, also to any one who may ask for it when ordering. In addition, this Supplement will contain several engravings from photographs of

**Our Exhibits at the Pan-American Exposition in Buffalo.**

## IN OUR REGULAR STANDARD PACKETS

are Supplied to Dealers at

## ONE-HALF RETAIL PRICES

and in orders of 500 papers or more at **60 PER CENT.** discount from retail prices. **— SPECIAL PRICES WILL BE GIVEN ON LARGE ORDERS FOR SEEDS IN PAPERS. —**

Our Garden Seeds are put up in a very neat and attractive style. **FULL AND COMPLETE DIRECTIONS FOR CULTURE**, together with an illustration and description, **PRINTED ON EACH PACKET** of nearly all the leading varieties. We have been at considerable expense to have correct illustrations and photographs taken for this purpose, and feel sure that our customers will appreciate it when they receive the seeds.

**— FLOWER SEEDS IN PAPERS** supplied at **one-half retail prices**, and in lots of 500 papers at 60 per cent. discount. **— For description and Retail Prices, see Burpee's Farm Annual for 1902**, a copy of which may be had upon application.

### **THE STYLE OF PAPERING OUR FLOWER SEEDS.**

At an expense of some hundreds of dollars we have had illustrations made of nearly every variety of Flowers, and have prepared electrotypes giving also directions for culture. Thus, with few exceptions, **every Packet of Flower Seeds sold by us bears an illustration of the variety and concise directions for culture.** We are sure our customers will appreciate the labor involved in this work when they receive the seed in the neat new style which, to our taste, is vastly preferable to the gaudy chromo packets so generally used.

# Durpee's Seeds That Grow

Above is a reduced *facsimile* of our neat new "hanger." It is made of heavy cardboard, with white enameled raised letters, on both black and red ground.

We guarantee that all seeds sold by us are **FIRST-CLASS, true and pure, and of strong germinating power, in so far that should any prove otherwise we will refill the order free or refund the price paid.** Further than this we cannot warrant, but this should suffice to convince even those who have never dealt with us of the extreme care that is exercised—both in growing and handling our seeds.

**THE ONION**  
here shown is  
engraved exactly natural  
size from photograph taken  
by ourselves, of a specimen grown  
by one of our customers in New  
York. It shows what our  
strain of PRIZE-TAKER will  
produce the first year  
from seed,—even in the  
Atlantic States. We  
have a fine lot of new  
seed,—write for  
prices if in need  
of a large lot.
